

MyNavy HR IT Solutions (PMW 240)
Plan of the Month Submission

1. MyNavy Messages Mobile App Now Available

BLUF: Download the MyNavy Messages app for instant access to official NAVADMIN and ALNAV messages anytime, anywhere.

Developed at the request of Sailors across the fleet, the MyNavy Messages app is the Navy's official, free NAVADMIN and ALNAV message viewer brought to you by MyNavy HR IT Solutions. The app allows users to easily search, filter, download, and share the most up-to-date official communications. Features include bookmarking important messages, grouping by month, emergency message alerts, and offline access to downloaded content. Download at applocker.navy.mil. For more details, see the MyNavy Messages Info Sheet.

2. ACCESS MYNAVY PORTAL WITHOUT YOUR CAC ON MOBILE

BLUF: MyNavy Portal (MNP) can now be accessed password- and CAC-free on your mobile device—access MNP anytime, anywhere.

The MyNavy Portal Quick Start highlights how Sailors can now access MyNavy Portal from their mobile devices without needing a CAC reader. A simple one-time setup using a CAC-enabled computer links your account to biometric authentication on your phone. Once configured, log into MNP using your email and biometric verification. Get started by downloading the Okta Verify app from the App Store or Google Play.
